

Miura Webmeeting

Desktop sharing and web conferencing.

Online meetings made simple

Miura Webmeeting lets you share your desktop with colleagues, suppliers and customers in seconds with no downloads or plug-ins to worry about, making it ideal for:

- Sales presentations
- Project reviews and team meetings
- Management meetings
- Contract negotiation
- Sales team meetings
- Corporate communications
- E-learning/training

Everything you need to do business online

Miura Webmeeting has all the features needed to enable you to replace many of your traditional face-to-face meetings with more cost effective online ones.

- **Video transmission** - With the video function you can look your opposite number in the eye – live and in colour. Video is instantly applied without any installation, transferring live video images of up to 6 meeting participants simultaneously.
- **Management of participants** - transfer remote-control rights, switch direction of view and more all from the session tray/ control panel.
- **Application selection** - to retain tight control over which documents/ applications may be shown to your audience.
- **Whiteboard** - functions for on-the-fly drafting just like in real meetings.
- **File transfer** - instantly distribute meeting notes, brochures or documents to meeting attendees.
- **Recording** - record and playback of sessions (screen content and sound).
- **Monitor screen** - enables the moderator to see at a glance be transferred image.
- **Session planner** - send invitations, co-ordinate calendars via Outlook and Lotus Notes synchronization.
- **Pointer** - allowing participants to indicate clearly onscreen
- **VoIP audio transmission** - save on phone calls and transmit sound over the internet as well. The full duplex mode provides outstanding audio quality for up to 6 participants.
- **Survey manager** - conduct opinion polls, online testing and market research questionnaires via the survey editor tool
- **Emoticons and Chat** - graphical icons giving participants an easy way to express their current mood, providing instant feedback to silently inform or place a question
